Dear Dept. of the Army,

I am extremely interested in the recovery and protection of the Northwest salmon on the Snake River. I understand you are looking at several options and there is one specific item that must be done to protect the Salmon for the future. You must include dam removal in any option chosen to protect the Snake River Salmon. You need to also take a look at the impact dams have on fishing communities in the Northwest.

Thank you for taking the time to consider by request for the protection of the Northwest salmon.

With Best Regards

Todd Smith
